Planting of the Vineyard

The ingredients for a good vineyard are not simple, as we are discovering

Ist, you must have good terrain or understand the limits of what you do have. We have analyzed our soil and replaced phosphorous and organic material which were lacking and plowed and plowed to make the soil smooth and suitable for planting the vine stock.

We plan to have an undergrowth of special plants and grasses which will add nutrients and control heat fluctuations as well.

✕ Between Christmas and Carnevale ✕

The month of January is a time of planning and plotting here at Nascondiglio di Bacco, but after a bit of relaxation Carnival arrives the last day of the month!

JANUARY

We have begun our work in the vineyard with pruning now completed and plans for the vineyard finalized.

Right now, getting the pool plans finished is our main preoccupation.

We are also entertaining ideas about romantic weekends with

luxury rooms for St. Valenti-

ne's Day, excursions in the mountains with picnics for our Spring and Summer guests with visits to local artisans. The next big adventure here, of course, will be Carnevale with the running of the "fake bull" alla Pamploma, here in Offida! Stay tuned for more information in a

special newsletter.

B&B Day

For the second successive year, the site: www.bed-and-breakfast.it has organized a special day for owners and guests of B&B's.

This year on March 1, B&B day will highlight the many bed and breakfasts in Italy and participating owners, including ourselves will be offering their clients a free night's stay. Our offer is for a free night with a stay of at least 2 other nights. It is a great way to disco-

ver these small, cozy lodgings while receiving a great discount! Be sure to mark your calendars and reserve a space early.
